

Glass railing with posts and accessories

# Glass railing with posts and accessories

## Ø42.4 round baluster posts and handrail

Classic round baluster posts and handrails made of stainless steel allow you to create high-quality and exclusive glass railings. The standard surface finishing of round posts is brushed stainless steel, but they can also be painted RAL colours, if desired. The advantage of stainless steel baluster posts over black steel posts is very good corrosion resistance and a nice appearance for a long time.

- The posts are made of Ø42.4x2 stainless steel pipe
- Post lengths and clamp locations as per request
- Material: for indoor use 304 (1.4301) or for outdoor use 316 (1.4401)
- Surface finishing: brushed stainless steel or RAL powder coated
- Posts with bottom fastening or side fastening
- Possibility to use different glass clamps and railings
- Tested to the railing linear load up to 1 kN/m

INFO: The package contains baluster posts in unassembled state.  
To attach handrail holders, you need to order stainless steel adhesive.

## Ø42.4 round baluster posts and handrail

### Base fixed round post

Material	Number of clamps	Code
304	-	SPB42.04
304	2	SPB42.04.2
304	4	SPB42.04.4
316	-	SPB42.16
316	2	SPB42.16.2
316	4	SPB42.16.4

INFO: Dimensions on request.

Linear load resistance up to 1 kN/m.

### Side fixed round post (model SPC)

Material	Number of clamps	Code
304	-	SPC42.04
304	2	SPC42.04.2
304	4	SPC42.04.4
316	-	SPC42.16
316	2	SPC42.16.2
316	4	SPC42.16.4

INFO: Dimensions on request.

Linear load resistance up to 1 kN/m.

### Side fixed round post (model SPS)

Material	Number of clamps	Code
304	-	SPS42.04
304	2	SPS42.04.2
304	4	SPS42.04.4
316	-	SPS42.16
316	2	SPS42.16.2
316	4	SPS42.16.4

INFO: Dimensions on request.

Linear load resistance up to 0.5 kN/m.

## 40x40 rectangular baluster posts and handrail

Modern rectangular baluster posts and handrails made of stainless steel allow you to create high-quality and exclusive glass railings. The standard surface finishing of rectangular posts is brushed stainless steel, but they can also be painted in RAL colours, if desired. The advantage of stainless steel baluster posts over black steel posts is very good corrosion resistance and a nice appearance for a long time.

- The posts are made of 40x40x2 stainless steel pipe
- Post lengths and clamp locations as per request
- Material: for indoor use 304 (1.4301) or for outdoor use 316 (1.4401)
- Surface finishing: brushed stainless steel or RAL powder coated
- Posts with bottom fastening or side fastening
- Possibility to use different glass clamps and railings
- Tested to the railing linear load up to 1 kN/m

INFO: The package contains baluster posts in unassembled state.  
To attach handrail holders, you need to order stainless steel adhesive.
